First National Wealth Management Introduces Financial Solutions for Women

WEST CHESTER _ First National Wealth Management, a division of First National Bank of Chester County, has introduced Financial Solutions for Women, a team of seasoned, credentialed women dedicated to providing financial advice to women in the community. The team is comprised of Chartered Financial Analysts, Certified Public Accountants, lawyers, Certified Financial Planners, and Certified Trust and Financial Advisors.

“Financial Solutions for Women was founded by professional women at First National Bank who have experienced divorce, single motherhood, job loss and taking care of an elderly parent. They understand how those life changing events can impact a women’s financial security. This is a department created by women for women,” said Clay Henry, Executive Vice President of First National’s Wealth Management Division. “This team shares their expertise enabling women to make sound financial decisions, grow their wealth, and plan for a secure retirement”.

To make an appointment with the Financial Solutions for Women team, contact 484-881-4081.

First Chester County Corporation and its wholly owned subsidiary, First National Bank of Chester County, is a financial institution with 23 branch offices located in Chester, Delaware, Lancaster and Cumberland counties. Founded in 1863, First National Bank of Chester County is the eighth oldest national bank in the country. First National provides quality financial services to individuals, businesses, government entities, non profit organizations, and community service groups.

Wealth Management and Trust Services are provided through First National Wealth Management, a division of First National Bank of Chester County.

Mortgage services are provided through American Home Bank, a division of First National Bank of Chester County. American Home Bank (AHB) has multiple national delivery channels in the retail and wholesale mortgage arena as well as joint venture mortgage partnerships with builder and systems-built manufacturers.
